CHRISTMAS LIGHTS

You may have noticed that the Christmas lights are starting to go up. Tavistock Town Council Ops staff are working alongside JT Greaves as contractors for the BID areas. As well as the new motifs for Plymouth Road, we are also purchasing a few new strings for Paddon's Row and King Street. Our priority is that the town lights look as dazzling as ever this year.

We are thrilled that a number of local businesses have come forward to offer sponsorship for the lights in the Churchyard. This support is so valuable and ensures that your BID levy goes even further.

More details to be announced.
